Logistics:

If not specifically requested otherwise, SCO requires

- one (1) parking space for 1x sprinter class vehicle and 1x trailer. Electrical connection is not required.

If there is no space backstage, our trailer must somehow be pulled to the backstage area. Either with a separate towing vehicle or by hand. Please note that the trailer weighs around 2700kg and cannot be pushed up or downhill.

Personnel SCO:

- 6x musicians on stage
- 1x Audio Engineer
- Further staff members according to separately communicated **Travel Party** (shortly before the event)

The whole band and crew travels together (timings, members, and exceptions according to Travel Party). Should the arrival be postponed due to traffic obstruction or other reasons, the organizer will be informed immediately by phone.

Merchandising:

We need a clearly visible area with tables at a suitable location (weather-protected and dry, highly frequented and with a 230V power connection) for the sale of merchandising items.

Dressing Rooms:

When the band arrives, a clean, if necessary heated and lockable dressing room with enough chairs and at least one table is required.

The band is happy about clean and fresh towels. At least one power connection (230V / 10A) is needed!

Catering:

No particular allergies or food intolerances. If you have any questions, please let us know.

- snacks, candies, and some fruits at our arrival
- coffee, milk, and sugar
- one warm meal each for all band and crew members (with vegetarian option)
- 1 crate of non-alcoholic soft drinks, some energy drinks
- 2 crates of beer (local brands are welcome) **after the show!**

On stage

- 6 PVC-Bottles of still water - no glass please
- 6 fresh black towels (please not too big)

That's all! We are an easy going bunch of people and looking forward to have some fun with you.

As above mentioned, we will provide Travel Party and Guest List shortly before the Event.

Thanks in advance for your efforts!

WE WISH YOU AND ALL PARTICIPANTS A SUCCESSFUL EVENT!
